

Confrontation Management UTC

AGL's Confrontation Management Solution provides a turn-key system designed for personnel during civil disturbances. Each case is engineered to contain mission critical components as a system that can be quickly deployed and provide maximum protection. The Confrontation Management UTC is comprised of:

Personal Protection Kit

Personal Safety Kit

Crowd Control Kit

Crowd Control OC Kit

Personal Protection Kit

This fully integrated kit contains advanced personal protection equipment that will withstand blunt force blows and absorb the shock of thrown projectiles.

- Riot Suit with Gloves
- Baton
- Cuffs
- Face and Handheld Shields

Confrontation Management UTC

Crowd Control Kit

Provides a turn-key system for immediate mass communications and control. This fully integrated kit is designed for use in small or large crowds in any situation.

- Ocular Interrupter
- Translator
- Metal Detectors
- Megaphone
- Long Range Acoustical Device

Crowd Control OC Kit

Designed for less than lethal measures. This fully integrated kit is designed for use in small or large crowds in any situation.

- 4oz Spray with Carrier
- 20oz Spray with Carrier

Personal Safety Kit

Outfit personnel with first aid items that may be needed during civil disturbances. Each compact kit is designed to deliver immediate critical care, remove bulk decontamination, and neutralize contaminants.

- IFAK (Individual First Aid Kit)
